WORK EXPERIENCE

Accede Ghana
Software Engineer

Accra, Ghana
December, 2022 - Present

- Collaborated with Accede Ghana's UI/UX team to seamlessly transform design concepts into code using Flutter, delivering visually appealing and user-friendly applications.
- Designed and executed a comprehensive suite of tests for client-requested features, enhancing product quality and customer satisfaction.
- Integrated Sentry error monitoring for proactive error resolution in a mobile app, ensuring a seamless user experience in production.

Bismuth Technologies
Software Engineer

Kumasi, Ghana
June, 2022 - December, 2022

- Provided technical guidance and mentorship to colleagues, offering expertise in software development best practices and assisting in problem-solving to enhance the skills and knowledge of the team at Bismuth Technologies.

Dawurobo Inc
Software Developer - Intern

Kumasi, Ghana
October, 2021 - January, 2022

- I developed and tested mobile applications for iOS and Android platforms using the Flutter framework, ensuring seamless functionality and user experience.
- Collaborated closely with backend developers, designers, and cross-functional teams to deliver meticulously designed and innovative solutions, ensuring top-tier quality and user experience for Dawurobo's software products.

Programming Languages: Dart, Python, SQL, HTML, Typescript, Java, Javascript
Frameworks: Flutter, Next Js, Scikit Learn, Django
Other Technical Skills: Git/Github, REST - API, AWS, Bash, Linux

PROJECTS

Kacha Agent Mobile Application *Flutter (Dart)*

<https://www.kacha.et/>

I was part of the team that developed the Kacha digital platform, the very first private payment instrument issuer licensed by the National Bank of Ethiopia. For this project specifically worked on the agent mobile application, where I used the Flutter framework. It included feature like withdrawing funds from ones account, transfer of funds etc

TEWU Fund *Flutter (Dart)*

<https://play.google.com/store/apps/details?id=com.tewu.tewuapp&hl=en>

Developed the Tewu app using Flutter, allowing users to access a wide range of features and services. Contributed to the app's design, development, and testing, ensuring a seamless user experience across Android and iOS platforms.

African Cuisine Spokane *Django (Python), HTML, CSS, Javascript*

<https://africancuisinespokane.com>

I developed a dynamic website for African Cuisine Spokane using Django, integrating a secure Stripe payment system to facilitate online food ordering. This project included creating a user-friendly interface, implementing a robust backend for managing orders, and ensuring seamless payment processing. The integration of Stripe enabled secure transactions, enhancing the overall customer experience and supporting the client's goal of connecting the community with authentic African cuisine.

Love Notes Around The World *Flutter (Dart)*

<https://apps.apple.com/ph/app/acs-love-notes/id1669273897>

Developed the Love Notes app using Flutter, enabling users to create and share personalized love notes. Contributed to UI design, core functionality implementation, and ensured a seamless user experience across Android and iOS platforms.
